

A Great Place to Learn

# 2022 - 2023 SCHOOL PROFILE

## ABOUT GAAQ

GEMS American Academy Qatar (GAAQ) is part of the GEMS Education family, a network of international schools that offer students the highest standard of education. As a GEMS Education school, we embody the GEMS core concepts of leading through innovation, pursuing excellence, growing by learning and global citizenship.

GAAQ is a highly-rated American curriculum school in Qatar that operates under the Ministry of Education (MOE) as an international school. Fully-accredited by the New England Association of Schools and Colleges (NEASC) and certified by College Board, our academy, located in Al Wakra, offers a rigorous American curriculum from Pre-Kindergarten through Grade 12 to our multicultural student body. In addition to U.S. Common Core standards-based academics that culminate with Advanced Placement (AP), we also provide a robust set of extra-curricular activities (e.g., after school clubs and sports teams) to support the development of the entire child.

Our balanced educational program places a strong emphasis on academics while incorporating the arts, athletics, community service and a wide range of learning opportunities inside and outside the classroom. Our curriculum is deepened through child-centered learning and our teachers strive to foster the development of each student's unique talents and abilities. At GAAQ, we firmly believe that education is about overall student development (academic, social, emotional, physical and cognitive learning).

## ABOUT GEMS EDUCATION

Committed to quality education, GEMS Education is a pioneering education company that owns and operates a global network of award-winning international schools. For more than 60 years, we have been a trusted choice for families in the Middle East. With the privilege of educating more than 250,000 students globally, our 20,000+ teachers dream big, push boundaries and make a difference to families every day.

Our students excel across multiple dimensions, garnering global recognition with more than 1,550 international, regional and national awards. What truly matters to us is the confidence our students feel when they walk out of our doors and into the world to build a better future. In the last four years, GEMS has enjoyed some of the best university acceptance rates of any international school. Our students have been accepted into 1,050 universities in 53 countries. We're proud to say that it includes 66 of the world's top 100 universities, including, but not limited to, Harvard University, Stanford University, Yale University, University of Pennsylvania, University of Oxford, University of Cambridge, Massachusetts Institute of Technology (MIT) and the University of California Berkeley. Today, more than 20,000 GEMS alumni are changing the world.

## 2022 - 2023 STUDENT BODY

**Enrollment: 1205**

**Early Years (PK – KG1)**

**Elementary (KG2 – Grade 5)**

**Middle School (Grades 6 - 8)**

**High School (Grades 9 - 12)**

## Nationality Distribution

17%	American
16%	Qatari
8%	Egyptian
6%	Canadian
53%	Other (67 remaining nationalities)

56%	Male
43%	Female

**100%**

Students admitted to colleges and universities since our first graduating class in 2019

**4**

Awards won for our Eco-Club's environmental sustainability initiatives (FEE Eco-Schools Green Flag Award, Qatar Green Building Council's School Sustainability Award, 2nd Place - 10th Annual THIMUN Global Act with Impact and THIMUN Qatar Youth Service Award)

**90**

Years of combined diverse experience with our American-led leadership team

**20**

Advanced Placement (AP) courses offered through College Board for the 2022 - 2023 school year

**71**

Nationalities within our student body

**2<sup>nd</sup>**

Average rank in highest parent satisfaction score out of 45 GEMS Education schools in latest survey

**1**

One of a few schools in Qatar to offer the rigorous AP Capstone Diploma program

## EXTRACURRICULAR & AFTER SCHOOL ACTIVITIES (ASAs)

### PK & KG1

Even though there are no ASA opportunities for PK and KG1 students, our teachers work to enrich the learning environment in classrooms as well as outside our school walls. Classrooms are well-resourced to match child interest and exploration. Additionally, we have safe and secure nap rooms and dedicated play areas. Once they are comfortable in their classrooms, the teacher will introduce them to the greater school building and they will also attend field trips off-campus to explore Doha's beautiful parks and beaches in connection to their units of study.

### ELEMENTARY

KG2 - Grade 5 students offer choice activities after school where students can interact within a variety of no-cost multi-age group activities including, but not limited to: multi-sports, cultural dance, arts and crafts, sketching and cartooning, reader's theater, singing, eco-club, STEM activities, calligraphy and more! Please note that ASA offerings are subject to change each academic term. Also, students enjoy regular, off-campus field trips to various locations as an extension of learning in the classroom. Some popular locations include, but are not limited to: Al Bidda

Park, Baladna Park, Purple Island Mangroves, Qatar National Library, Qatar National Museum, Museum of Islamic Art, Carrefour, Msheireb Museum, Bin Jelmood House, KidZania and more!

### UPPER SCHOOL (Middle School and High School)

Students in Grades 6 - 12 have a plethora of ASAs, extracurricular activities and student enrichment opportunities to engage in. In Upper School, students can participate with organizations or initiatives that are local, regional or international. Throughout history, our Upper School students have been affiliated with opportunities including, but not limited to: The Hague International Model United Nations (THIMUN), Qur'an Recitation Competition, GAAQ Student Council, Doha Medical Conference Review, Qatar Green Building Council, Cambridge University, The Duke of Edinburgh's International Award, Visual Arts Creators Exhibition and the Inter-school Battle of the Bands competition. Additionally, students can participate in a variety of no-cost, multi-age group ASAs offered by the school.

## COURSE LISTING

### PK & KG1

Learning Centers  
Whole Group Work  
Library  
Read Aloud  
Small Group Work  
Art  
Music  
Physical Education (PE)  
Arabic - KG1 Only (Native and Non-Native)  
Islamic - KG1 Only (required for all Muslim students)

### KG1 & KG2

Reader's Workshop  
Writers Workshop  
Phonics  
Learning Centers  
Library  
Read Aloud  
Small Group Work  
Science  
Social Studies  
Art  
Music  
IT  
Physical Education (PE)  
Arabic (Native and Non-Native)  
Islamic (required for all Muslim students)

### Grade 1

Reading  
Shared Reading/Writing  
Writers Workshop  
Readers Workshop  
Interactive Writing  
Phonics  
Read Aloud  
Arabic (Native and Non-Native)  
Islamic (required for all Muslim students)  
IT  
Art  
Music  
Physical Education (PE)  
Math  
Social Studies  
Science  
Qatar History

### Grades 2 - 5

Shared Reading/Writing  
Writers Workshop  
Reader's Workshop  
Phonics  
Read Aloud  
World Languages (for Non-Native Arabic students)  
Arabic (Native and Non-Native)  
Islamic (required for all Muslim students)  
IT  
Art  
Music  
Physical Education (PE)  
Math  
Social Studies  
Science  
Qatar History

### MIDDLE SCHOOL

Grades 6 - 8 English  
Grades 6 - 8 Math  
Algebra I (Grade 8 - high school credit course)  
Grades 6 - 8 Science  
Grades 6 - 8 Social Studies  
Arabic (required for all Arab nationalities)  
Art (optional)  
Applied Music (optional)  
Drama (optional)  
Information Technology (optional)  
Islamic Studies (required for all Muslim students)  
Spanish (optional)  
French (optional)  
Physical Education (optional)  
Qatar History (required)  
Study Skills (optional)  
Entrepreneurship (optional)

### HIGH SCHOOL

**English**  
English Language Arts I - IV  
AP English Language and Composition

### Math

Algebra I - II  
AP Calculus AB  
AP Calculus BC  
Statistics  
Geometry  
Pre-Calculus

### Science

AP Environmental Science  
Environmental Science  
AP Biology  
Biology  
AP Chemistry  
Chemistry  
AP Physics I  
Physics

### Social Studies

AP European History  
European History  
AP Human Geography  
Geography  
Modern World History  
Qatar History (required - Grade 9)  
AP Psychology  
Psychology  
AP Seminar  
AP Research  
Research (Grades 11 - 12)

### Fine Arts and Student Choice

AP Drawing  
AP 2D Art and Design  
AP 3D Art and Design  
Art I  
Applied Music I  
Band I - III  
AP Computer Science Principles  
Information Technology I - II  
Islamic Studies I - IV (required for all Muslim students)

### Physical Education

Physical Education  
Coaching I - II (Grades 11 - 12)

### Global Languages

Spanish I - IV  
Spanish for Native Speakers and Heritage Speakers  
AP Spanish Language and Culture  
AP Spanish Literature and Culture  
French I - II  
Arabic I - IV (required for all Arab nationalities)

## ATHLETICS

### Elementary School

As part of QPPSSA (Qatar Private Primary Schools Sports Association), GAAQ competes with other schools throughout the year in a variety of sports such as:

- Track & Field (Indoor & Outdoor)
- Soccer
- Cross Country
- Basketball
- Swimming

### Upper School

As part of QUESA (Qatar United English Speaking Schools), GAAQ competes with other schools along the year in a variety of sports:

- Volleyball
- Netball
- Soccer
- Track & Field
- Badminton
- Basketball
- Table Tennis

### SOP (School Olympic Program)

Supported by the Qatar School Sport Association and the Qatar Olympic Committee, GAAQ is proudly taking part in the SOP for the current year. With competitions from Grades 2 - 12, athletes represent GAAQ in a variety of sports that are typically celebrated in the Olympics such as:

- Soccer
- Volleyball
- Basketball
- Taekwondo
- Fencing
- Track & Field
- Swimming

### Mascot and Colors

A red and navy flying raptor represents our GAAQ philosophy - flying high. Raptors are birds of prey (like eagles, hawks, falcons and ravens) that are notable and historically valued in Qatar, especially the falcon. We are proud to belong to the GAAQ Raptor family. GO RAPTORS!

## CURRICULUM AND GRADUATION STANDARDS

### Grading Scale

AP courses are considered the most rigorous, college-level coursework within the American curriculum. Please note that there is no additional weighting for these courses.

Letter Grade	Percentage	Grade Point Average
A	90 - 100	4.0
B	80 - 89	3.0
C	70 - 79	2.0
D	60 - 69	1.0
F	0 - 59	0

### Minimum Graduation Requirements

At GAAQ, a minimum of 24 credits are required for graduation. One credit (1.0) is awarded for the successful completion of each full year course with a minimum mark of "D" or 60%. Students enroll in courses according to graduation requirements, abilities, interests and previous education experience. Every student who fulfills minimum graduation requirements will be eligible to graduate from GAAQ with an American High School diploma.

Minimum Requirements	Required Courses
4.0 Credits	English Language Arts (ELA)
4.0 Credits	Mathematics
4.0 Credits	Science
4.0 Credits	Social Studies
2.0 Credits	Fine and Performing Arts
2.0 Credits	World Languages
2.0 Credits	Physical Education and Health
2.0 Credits	Student Choice Electives
40 Hours	Community Service

## THE AMERICAN CURRICULUM AT GAAQ

### PK & KG1

The PK and KG1 classroom environments are designed with learning through play. With the play-based learning centers, students engage with their peers to learn skills in four main categories: social/emotional, physical, cognitive and language development. The social/emotional stage helps promote independence, self-confidence and self-control. Through various centers such as dramatic play, block building, toys and games, art, looking at books and drawing/writing, sand and water play and discovery tables, students get to interact with each other practicing social skills and emotional regulation. Our teachers are guides and coaches before, during and after social encounters so that students can gain skills that will benefit them along their learning journey. We know that when students have key social emotional skills, they are better prepared for academic learning in elementary school.

### KG2

In our KG2 classrooms, we begin academic skill building through the introduction of our programs - Readers Workshop, Writers Workshop and Everyday Mathematics. These programs allow hands-on learning which builds upon student independence and engagement in learning. Readers Workshop begins with students learning letter sounds, 'snap' words that appear in predictable text, reading pictures and retelling simple stories. Then, we progress to blending letters sounds to make words, matching pictures with the words on the page and decoding text. In Writers Workshop, we begin with student drawing and telling the story they have created, using inventive spelling to label pictures they have drawn. Next, we move on to touching and telling the story they want to write, understanding that each word has a place on the paper. Students also practice stretch words to hear each sound of the word which eventually advances to traditional spelling through Grade One. In Everyday Math, students play many games and use manipulatives to have hands-on experiences with objects that they sort, count, bundle, understand patterns and implement basic geometry. Students build number sense through 20 and can count to 100. Math concepts are learned through experiences and play. All the while, teachers are continuing to work with students to develop learning behaviors that will serve them when they walk up the stairs for the first time to Grade 1.

### ELEMENTARY SCHOOL (Grades 1 - 5)

Our approach, which is centered on developing the whole child, includes a rich diversity of academics, language, physical education, fine arts and music education. The GAAQ community developed the core values which focus on competencies that students will use their entire lives (leadership, respect, innovation, purpose and tenacity). These values are woven seamlessly into daily learning. We strive to use a cross-curricular approach called Problem-Based Learning

(PBL); this allows students to learn concepts, content and skills while applying them to real-world situations.

GAAQ's elementary students experience the American Common Core standards-based curriculum which is full of choice and opportunities for students to explore while developing academic skills. We count on teachers to provide highly-engaging cross-curricular lessons that promote the love for learning and challenge students to take risks and learn from mistakes.

### MIDDLE SCHOOL (Grades 6 - 8)

GAAQ follows the American Common Core Standards and students experience the full breadth of academic offerings in math, English, social studies and science taught by a team of teachers who are solely dedicated to working with students in middle grades. We utilize College Board's Springboard curriculum which directly aligns to the rigorous standards of Common Core and challenges students to develop independent thought and to think critically and creatively. This comprehensive curriculum lays the foundation for students to successfully take on more specialized course work in grades 9-12, including a wide range of Advanced Placement (AP) courses.

We pride ourselves on the cultural diversity of the school as this is reflected in the language program. Our middle school students are able to study French or Spanish as a foreign language, preparing them for the requirements of high school, and helping them become knowledgeable global citizens. We are also very proud of our high-performing Arabic team, who are consistently lauded with praise from the Ministry of Education of Qatar.

Arts and athletics are also an important part of the middle school program at GAAQ. These elective courses allow students to explore different areas of their choosing. From team sports in Physical Education, learning to play an instrument in band, coding in IT, drawing and painting in Visual Arts and performing a monologue in Drama, our middle students are offered a well-rounded and exciting educational experience.

At GAAQ we believe in teaching the whole child. Our Student Support team works tirelessly to ensure all students receive the individualized attention they need to be successful. Our burgeoning advisory program, and dedicated middle school counselor, directly address the social-emotional needs specific to young people in grades six through eight. We work closely with the 5th grade team to ensure that students are ready for the new challenges they'll experience in grade 6. Middle school is a crucial transition period for students between primary and high school where they grow from children to young adults and we recognize that that process can sometimes be difficult to

navigate. We're here to help along that journey, teach students the skills they will need going forward, and have some fun along the way.

The middle school at GEMS American Academy Qatar provides an enriching, nurturing and challenging environment for young people to explore who they are and grow into young adults equipped with the knowledge and skills to do great things.

### HIGH SCHOOL (Grades 9 - 12)

With a focus on Common Core standards throughout our core subjects, we offer a true American Curriculum that will help our students be successful in the future. Common Core aims to develop a student's critical-thinking, problem-solving, and analytical skills. Our curriculum is vertically- and horizontally-aligned so that students have the requisite skills and information necessary as they progress through each grade level. With unique opportunities in a wide array of school clubs and after school activities at no-cost to families, our school has grown into a safe, secure learning environment where students feel challenged and respected to grow holistically.

In Grades 9 - 12, we offer College Board's rigorous Advanced Placement (or AP Program) with approximately 14 - 18 AP courses offered each year. This program affords students the opportunity to take college-level courses while earning college and university credits while in high school. These courses are more difficult than regular high school classes and also require students to pass AP exams at the end of the year to obtain this college credit.

In addition, we offer the College Board's AP Capstone Diploma which is based on two year-long AP courses: AP Seminar and AP Research. These courses develop skills in research, analysis, evidence-based arguments, collaboration, writing and presenting. We have a cohort of AP Capstone Diploma students which speak volumes about our hardworking student body and passionate teachers. Still, Advanced Placement courses are optional, so our high school students can take all regular classes and still graduate with the highly-regarded American diploma, as well.

Even though the majority of our educators are from the United States and Canada, we still possess a diverse multicultural population at the school with over 70 nationalities and over 15 teacher nationalities. This is an unique attribute that allows our community to respect each other's cultures and learn from each other in a setting that actively promotes respect and tolerance for all. Graduates of GEMS American Academy Qatar are true indicators of this structure as we have students enrolled in reputable and esteemed colleges and universities all across the world.

## COLLEGE AND UNIVERSITY ADMISSIONS

Since our first graduating class, the Class of 2019, students have been accepted to the following colleges and universities:

### Africa

Cairo University (Egypt)  
Nahda University (Egypt)  
Ryerson Cairo (Egypt)

### Asia

AFG College with the University of Aberdeen (Qatar)  
American University of Beirut (Lebanon)  
American University of Sharjah (UAE)  
Airlangga University (Indonesia)  
Al Rayyan International University College (Qatar)  
Bahçeşehir Üniversitesi (Turkey)  
Bandung Institute of Technology (Indonesia)  
Biruni University (Turkey)  
Carnegie Mellon University (Qatar)  
City University (Malaysia)  
Georgetown University (Qatar)  
Gulf Medical University (UAE)  
Istanbul Medipol University (Turkey)  
Istanbul Okan University (Turkey)  
Koç University (Turkey)  
Management and Science University (Malaysia)  
Northwestern University (Qatar)  
Özyegin University (Turkey)  
Qatar University (Qatar)  
Qatar International Beauty Academy Tajmeel (Qatar)  
Swinburne Sarawak (Malaysia)  
Taylor's University (Malaysia)  
Texas A&M University (Qatar)  
Ulster University (Qatar)  
Universiti Teknologi PETRONAS (Malaysia)  
University of Doha for Science and Technology (Qatar)  
Virginia Commonwealth University School of the Arts (Qatar)
